

Library Volunteers Needed

The upcoming 2011/2012 school year will bring many changes including the availability of the school libraries for our children. Parent volunteers will be essential to maintaining the overall success of our schools' library system! If you're looking for a new and rewarding opportunity to help-out at your child's school, this is it! The library is an important part of the learning curriculum and without volunteers the library may simply be closed at certain times during the school day.

Availability of days, times, lengths of shifts, etc. will be determined later this summer or after school has started in August. Volunteers will need to be available for a set, consistent schedule to ensure proper staffing of the library on a weekly basis. If you would like to consider any amount of time to this volunteer position, please contact one of the School District 23 Transition Committee Members below who are coordinating this effort on behalf of Eisenhower, Ross and Sullivan.
